

51 Ghanaian Students to Receive Agricultural Training with Agrostudies in Israel for 11-Month

A collaboration between the Government of Ghana's Ministry of Food & Agriculture and Israel's Ministry of Foreign Affairs has offered an opportunity for 51 Ghanaian students to be trained in Israel for 11-month long on part-time agricultural training with AgroStudies.

The training is designed for students, who have undergone a three-month training in greenhouse technology with AgriTop Ghana, will be attached to Kibbutz Cooperative Farms, where they will work on the field for five days and also attend theoretical classes once a week in AgroStudies campuses across Israel.

While in Israel, the graduates will be paid a monthly allowance, which they will be expected to, save to enable them to kickstart their own Agribusiness upon their return to Ghana.

Speaking at a send-off ceremony for the students, Hon. Dr. Owusu Afriyie, Akoto Minister for Food and Agriculture lauded the Israeli Government for the collaboration that offers practical training and capacity building that eventually will lead to promoting food security in Ghana. The Agric Minister called on the students to take this opportunity serious such that on their return to the country they can set up vibrant vegetable sector in Ghana. He further urged them to be good ambassadors of Ghana, ensure discipline and comportment themselves to pave way for the next batch of students.
